Detailed Description of Work: Residential Remodel: Reconstruct existing back porch. No Expansion of footprint. Project to include: Remove and replace decking on porch, keeping
existing framing & footings. Remove and replace trim boards and skirting. Remove and replace guards and railings to code - specific design style of railing TBD. All this will be done in
the existing footprint. For the stairs we would like to change the footprint by extending them lengthways so they come down from the full length/width of the porch (9' 4") into the yard.
They will still project into the yard the same distance (57.5") but the width will be longer (from 40" to 112"). The two stairs that are above 24" high will add approximately 12 sq ft of lot
coverage (6' x 2') to our overall percentage. If all 5 stairs are counted then 30 sq ft (6' x 5') will be added.
