FALL COVID-19 BOOSTER VACCINES RECEIVE CDC AUTHORIZATION – The CDC has approved the FDA EUA for a modified Pfizer vaccine for age 12+ and one from Moderna for 18+ as fall boosters -- more effective against the original strain and the Omicron variant. Dr. Ashish Jha, the White House Covid response coordinator, has said the new shots will become available to the public by early to mid-September. The U.S. government has secured 105 million doses of Pfizer's updated shots and 66 million doses of Moderna's new vaccine.

COVID-19 Community Levels in New Hampshire

CDC currently lists all Rockingham County ss "low risk" but Strafford and York Counties are "medium" and Oxford County ME is "high."
