NH DHHS EXPANDS ELIGBILITY FOR MONKEYPOX VACCINE

The New Hampshire DHHS has expanded monkeypox vaccine eligibility criteria to make it easier for people at risk for monkeypox to be vaccinated, and to make it easier for healthcare providers to vaccinate patients they believe are at risk. Those now recommended to get the 2-dose vaccine series include:

- Any person who identifies as gay, bisexual, queer, or is a man who has sex with men (MSM) and believes they are at risk for monkeypox virus infection.
- A person of any gender or sexual orientation whom a medical provider thinks is at increased risk for monkeypox virus infection.
- Persons who report in the prior 14 days a known exposure to the monkeypox virus.

Vaccination locations can be found on the website, or contact your healthcare provider. Anyone experiencing monkeypox symptoms, should isolate and call their healthcare provider or call (603) 271-4496.
