Help Portsmouth control our own energy future!

Community Power, authorized by New Hampshire statute RSA 53-E, allows local governments to procure electric power on behalf of their residents and businesses. Our city has joined the Community Power Coalition of New Hampshire (CPCNH) along with 22 other communities to pool our purchasing power for lower rates, more green options and renewable projects. Residents will be able to choose to be in the Portsmouth Community Power electricity program or stay with Eversource.

We need your input to help shape Portsmouth Community Power! Tell us what you would like to see in this program by answering a short (11 questions) survey. Scan the QR code (or go to: <https://tinyurl.com/4wyhk74m>)
