

# City of Portsmouth Public Works 2026 tree availability

Conduct additional research into a tree of interest. Some varieties do not have an exact corresponding image, and what is provided is representative of the look of the tree.

The following images are publicly available online and are not owned by the City.

# Large trees

- Shade trees
- Generally greater than 35' tall at full maturity
- Not suitable for sites with overhead utility lines
- Not generally suitable for sites with limited space and sunlight

# Acer miyabei 'Morton'—State Street maple

50'H x 35'W; USDA zone 4; average/moist soils; full sun/part shade; tolerates dry, drought, wet

Zone: 4  
Height: 50'  
Spread: 35'  
Shape: Upright oval  
Foliage: Dark green  
Fall Color: Yellow

Think of this Morton Arboretum release as a turbo-charged, more hardy alternative to *A. campestre*. Rough corky bark and leaf shape are similar to Hedge Maple, but its stronger growth rate and ascending branch habit result in a larger mature size. Excellent drought and cold tolerance and clean, pest-free foliage.

## State Street® Maple

*Acer miyabei* 'Morton'

# Alnus hirsuta ‘Harbin’— Prairie Horizon Manchurian alder

40’Hx30’W; USDA zone 4; average soils;  
full sun/part shade; very tolerant to  
drought and adaptable to soil types

## PRAIRIE HORIZON® MANCHURIAN ALDER - ALNUS HIRSUTA ‘HARBIN’ (RFM-33)

### DESCRIPTION:

The most drought tolerant alder evaluated in NDSU trials. Rapid-growing, medium-sized tree with dark green leaves. Bark is gray and beech-like. Purple catkins and clusters of brown, cone-like strobiles add interest to the tree during winter. Tree mulching recommended. Prairie Horizon® will reach a semi-mature height of 30 feet in 15 to 20 years.

### HARDINESS:

USDA Zones 3-7

### MATURE SIZE:

Height 30'-40'; Spread 20'-30'

### FORM (SHAPE):

Upright, spreading habit

### FOLIAGE:

Deciduous; Dark green leaves that turn yellow in fall

### FLOWERS:

Purple catkins in spring

### FRUIT:

Brown cone-like fruit (persistent through winter)

### LIGHT PREFERENCES:

Full sun to full shade

### SOIL PREFERENCES:

Not particular to soil type or pH

### POTENTIAL USES OR APPLICATIONS:

Nursery stock, shelter, park, and specimen tree

### PATENT STATUS:

- U.S. Trademark registered – Prairie Horizon®

Betula papyrifera  
'Oenci'— Renaissance  
Oasis paper birch

50'H x 30' W; USDA zone 3; moist/well-draining soils; full sun/part shade; increased resistance to birch borer

## Paper Birch

*Betula papyrifera*

Zone: 3  
Height: 50'  
Spread: 35'  
Shape: Oval  
Foliage: Dark green  
Fall Color: Yellow

In cooler climates, this is the most permanent and desirable of all white barked birches. Slow to turn white, but a perfect chalk-white when older. Beautiful as a single stem tree or clump form.

# Celtis occidentalis 'Chicagoland'— Chicagoland hackberry

50'H x 35'W; USDA zone 2; moist/average soil; full sun/part sun; tolerates drought, dry, wet, air pollution

## Hackberry

*Celtis occidentalis*

Zone: 3  
Height: 45'  
Spread: 35'  
Shape: Broad top with ascending, then arching branches  
Foliage: Light green  
Fall Color: Yellow

Tolerant of harsh climatic conditions as well as urban abuse, this deeply rooted North American native tree rarely lifts sidewalks. Adapted to high pH soils and periodic flooding, it also tolerates extremes of heat, cold and drought. Tough, corky bark adds visual interest and protects against damage.

# Cladrastis kentukea 'Perkins Pink'—Perkins Pink yellowwood

40'H x 35'W; USDA zone 4; moist/average soil; full sun; tolerates drought

Zone: 4  
Height: 30'  
Spread: 40'  
Shape: Round  
Foliage: Bright green  
Fall Color: Brilliant yellow  
Flowers: White, in long clusters, fragrant

Showy cascades of fragrant white pea-like blooms are spectacular in May and June. Compound leaves and arching branches give an elm-like shape to this urban-tolerant native shade tree.

# Corylus colurna— Turkish filbert

50'H x 30'W; USDA zone 4; full sun/part sun; rich/moist soil; tolerates drought, normal soils

**Turkish Hazelnut**  
*Corylus colurna*

Height: 45 feet

Spread: 20 feet

Sunlight: ☉

Hardiness Zone: 4b

Other Names: Turkish Filbert, Turkish Hazel

#### Description:

A stately small tree with a formal pyramid shape, low maintenance, an excellent choice for home landscapes or boulevards; no one overwhelming ornamental feature but overall an excellent tree for landscape use.

#### Ornamental Features

Turkish Hazelnut is primarily valued in the landscape for its distinctively pyramidal habit of growth. It has dark green deciduous foliage. The crinkled round leaves turn yellow in fall.

#### Landscape Attributes

Turkish Hazelnut is a deciduous tree with a distinctive and refined pyramidal form. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a relatively low maintenance tree, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting squirrels to your yard. It has no significant negative characteristics.

Turkish Hazelnut is recommended for the following landscape applications:

- Shade
- Vertical Accent

#### Planting & Growing

Turkish Hazelnut will grow to be about 45 feet tall at maturity, with a spread of 20 feet. It has a low canopy with a typical clearance of 4 feet from the ground, and should not be planted underneath power lines. It grows at a medium rate, and under ideal conditions can be expected to live for 70 years or more.

# Ginkgo biloba 'Blagon—Goldspire ginkgo

40'H x 12'W; USDA zone 3; full sun; well-drained soils; adaptable to all soils, very tolerant of urban conditions

## Goldspire Ginkgo

*Ginkgo biloba* 'Blagon'

Zone: 4  
Height: 45'  
Spread: 12'  
Shape: Narrowly columnar  
Foliage: Green  
Fall Color: Bright golden yellow  
Fruit: None observed

Introduced from France, this densely branched, lightly festigate cultivar forms a narrow, symmetrical spire at a younger age than is typical of other columnar selections. Leathery, fan-like foliage turns golden yellow in autumn.

P.O. Box 189 • Boring OR 97009

# Gleditsia triacanthos 'Draves'—Street Keeper honeylocust

45'H x 20'W; USDA zone 3; full sun/part sun; average/drained soil; tolerates salt, heat, drought

Zone: 4b  
Height: 45'  
Spread: 20'  
Shape: Narrow, strongly upright, tightly pyramidal  
Foliage: Dark green, fine textured  
Fall Color: Yellow

An ideal tree for city streets, this cultivar boasts the tight, narrow form that has long been lacking in urban tolerant honeylocust. The ascending branch structure gives Street Keeper® a canopy that is only half as wide as other cultivars. Foliage is deeper green than other selections.

## Street Keeper® Honeylocust

# Gymnocladus dioicus 'UMNSynergy'—True North Kentucky coffeetree

(Image is not for variety selection, though  
is very similar)

60'H x 30'W; USDA zone 4; full sun;  
moist/rich soils; tolerates drought, air  
pollution, poor soils

Zone: 4  
Height: 50'  
Spread: 35'  
Shape: Oval to  
vase with upright  
arching branches  
Foliage: Huge  
doubly compound  
leaves, bluish-  
green  
Fall Color: Yellow

Large, frond-like,  
doubly compound  
leaves form a cano-  
py of dappled shade  
that gives this city-  
tough tree an airy,  
tropical feel. The  
arching branches  
of this seedless  
selection present an  
elm-like shape as the  
tree matures. Good  
tolerance of heat,  
drought, cold and  
alkaline soils.

## Magnolia acuminata— Cucumber magnolia

70'H x 60'W; USDA zone 3; full sun/ part shade; moist/rich/well drained soils

**cucurbitaceae Magnoliaceae Magnolia acuminata (L.) L.**    symbol: MAAC

**Leaf:** Alternate, simple, elliptical or ovate, 8 to 10 inches long, pinnately veined, entire margin, acuminate tip, dark green above and paler, whitened below.

**Flower:** Species is monoecious; 2 1/2 to 3 inches long, high in the tree, green to greenish-yellow, appearing in late spring or early summer.

**Fruit:** An aggregate of follicles, 2 to 3 inches long, cylindrical, initially green (cucumber-like), then red, and later dark brown; seeds inside follicles are 1/2 inch long, nearly round, red when mature in the fall.

**Twig:** Moderately stout, red-brown, light lenticels; large, silky, white terminal bud, stipule scars encircle the twig. Twigs have a spicy-sweet smell when broken.

**Bark:** Light gray-brown and silky, quite soft (can dent with thumbnail), much darker reddish brown when flaked away.

**Form:** Pyramidal when young, developing a straight trunk and a rounded crown reaching up to 80 feet tall.

**Looks like:** pawpaw - umbrella magnolia - bigleaf magnolia - Fraser magnolia

**Additional Range Information:** *Magnolia acuminata* is native to North America. Range may be expanded by planting. Download the full-size PDF map.

**More information:** Fall Color - Wood

**External Links:** USDAFS Silvics of North America - USDA Plants Database - Horticulture Information - USDAFS Forest Products Lab

# Nyssa sylvatica 'David Odom'—Afterburner black gum

45'H x 20'W; USDA zone 4; full sun; acidic, well-drained soils; urban tolerant, adaptable

Zone: 5  
Height: 35'  
Spread: 20'  
Shape: Upright  
pyramidal to oval  
Foliage: Bright  
green, glossy  
Fall Color: Bright  
red  
Fruit: Blue-black,  
1/2"

Symmetrical, uniform and upright branch structure and straight central leader make this cultivar easier to grow and better suited than seedlings of the species for use as a street tree. High gloss foliage shines through the summer and then turns bright red in fall, burning brightly after most tupelo have defoliated.

## Afterburner® Tupelo

# Platanus acerifolia 'Morton Circle'— **Exclamation! London planetree**

55'H x 35'W; USDA zone 5; full sun;  
average/wet soils; tolerates some shade,  
air pollution

Zone: 5  
Height: 55'  
Spread: 35'  
Shape: Upright  
pyramidal  
Foliage: Medium  
green  
Fall Color: Yellow

**DISEASE  
RESISTANCE:**  
Anthracnose and  
powdery mildew

Near-perfect  
symmetry  
commands attention  
in any landscape. A  
carefree performer  
on city streets, it  
is urban tolerant,  
anthracnose  
resistant, and  
moderately resistant  
to powdery mildew.  
A moderate growth  
rate, light-fruiting  
habit and resistance  
to frost cracking are  
additional reasons  
to plant this

adaptable shade  
tree.

# Quercus bicolor 'JFS-KW12'—American Dream oak

50'H x 40'W; USDA zone 4; full sun; average/well-drained soils; resists mildew and anthracnose, tolerates urban conditions

Zone: 4  
Height: 50'  
Spread: 40'  
Shape: Broadly pyramidal  
Foliage: Bright green, glossy  
Fall Color: Yellow

Vigorous growing and broadly pyramidal with excellent density, this tree shines with bright green, glossy foliage. Selected for strong resistance to anthracnose and powdery mildew, the broad, handsome leaves turn yellow and then tawny brown as they hold into early winter.

## American Dream® Oak

# Quercus ellipsoidalis— Northern pin oak

55'H x 40' W; USDA zone 4; full sun;  
average/well-draining soil; tolerates  
drought and heat, urban, adaptable

Zone: 4  
Height: 55'  
Spread: 40'  
Shape: Broadly  
pyramidal to oval  
Foliage: Green  
Fall Color: Red

Closely related  
to Pin Oak, this  
tree shares many  
positive attributes  
and is also more  
tolerant of dry and  
alkaline soils. Also  
known as Hill's Oak,  
its native range is  
the northern mid-  
west, but it can be  
used more widely.

## Northern Pin Oak

# Ulmus x 'Frontier'— Frontier elm

40'H x 30'W; USDA zone 4; full sun;  
average/moist soils; tolerates drought, dry,  
flooding, salt, wet; resistance to DED and  
EES

Zone: 5  
Height: 40'  
Spread: 30'  
Shape: Vase  
to oval  
Foliage: Glossy  
green  
Fall Color:  
Burgundy

**DISEASE  
TOLERANCE:**  
Dutch elm  
disease and  
phloem necrosis

'Frontier' features  
beautiful reddish-  
purple to  
burgundy fall  
color which  
is particularly  
long lasting. A  
U.S. National  
Arboretum  
introduction. It is  
a hybrid of  
*U. minor* and *U.*  
*parvifolia*.

# Small trees

- Ornamental trees
- Generally less than 35' tall at full maturity
- Suitable for sites with overhead utility lines
- Suitable for sites with limited space and sunlight
- Have features that are seasonally more attractive (flowers, etc.)

# Acer campestre 'JFS-Schichtel2'—Streetside hedge maple

35'Hx18'W; USDA zone 4; average soils; full sun/part shade; cold hardy, tolerant of urban conditions

Zone: 5  
Height: 35'  
Spread: 18'  
Shape: Upright narrow oval  
Foliage: Dark green  
Fall Color: Yellow

**INSECT RESISTANCE:**  
Japanese beetle

Upright sweeping branches give this vigorous growing selection of Hedge Maple its distinctively narrow and upright form. Heat resistant dark green leaves stay fresh through the summer months and turn yellow in autumn.

# Acer negundo 'Sensation'— Sensation box elder

30'Hx25'W; USDA zone 4b; average soils;  
full sun/part shade; seedless, very tolerant  
of urban conditions

Zone: 4b  
Height: 30'  
Spread: 25'  
Shape: Rounded  
Foliage: Medium  
green  
Fall Color:  
Brilliant red  
Fruit: Seedless

Sensation is a male  
box elder clone that  
features slower,  
more controlled  
growth, improved  
branch structure,  
and an outstanding  
display of brilliant  
red autumn foliage.  
Warren Carneff of  
Fruitland Nursery  
discovered the  
original tree  
growing near an  
abandoned Idaho  
homestead.

# Amelanchier x grandiflora 'Princess Diana'—**Princess Diana serviceberry**

20'Hx15'W: USDA zone 3; average/moist  
soils; full sun/part shade; tolerates variety  
of soils

Zone: 3  
Height: 20'  
Spread: 15'  
Shape: Gracefully  
spreading  
Foliage: Small,  
green  
Fall Color:  
Brilliant red  
Flower: White, in  
clusters  
Fruit: Edible,  
purplish blue, 1/2"

A gracefully  
spreading small  
tree with excellent  
fall color. Fall foli-  
age is spectacular,  
coloring early and  
lasting late in the  
season.

## Princess Diana Serviceberry

# Amelanchier laevis 'JFS-Arb' PP15304/Spring Flurry—Spring Flurry serviceberry

35'H x 25'W; USDA zone 4; moist/average soil; full sun/part shade; tolerates wet, air pollution

Zone: 4  
Height: 28'  
Spread: 20'  
Shape: Upright oval  
Foliage: Medium green  
Fall Color: Orange  
Flower: White, in clusters  
Fruit: Purplish blue, edible, 3"

A street tree Amelanchier! This Schmidt introduction has exceptional tree form. A dominant central leader supports strongly upward-oriented scaffold branches. Pure white blooms smother a delicate latticework of twigs in spring. These give way to healthy green foliage that turns orange in the fall.

Carpinus betulus  
'Lucas'—**Lucas**  
**European hornbeam**  
+ Carpinus betulus  
fastigiata—  
**Pyramidal European**  
**hornbeam**

Lucas: 35'H x 10'W; USDA zone 5; average soils; full sun; very tolerant of urban conditions, drought

Fastigiata: 35'Hx25'W; USDA zone 5; average soils; full sun; very tolerant of urban conditions, drought

Zone: 5  
Height: 30'  
Spread: 10'  
Shape: Narrow, columnar  
Foliage: Dark green, thick  
Fall Color: Brownish to golden yellow

Dense, tightly columnar form stays narrower than the widely planted 'Fastigiata'. Thick, durable leaves turn from golden yellow to brown and provide winter interest by persisting through the winter months. Tolerates high pH and heavy soils and can be tightly sheared as a narrow hedge or screen.

# Carpinus caroliniana 'JN Select'—Fire King American hornbeam

25'H x 20'W; USDA zone 3; moist/average soil; full sun/part shade/full shade; tolerates clay

JN Plant Selections, LLC Introduction

## Fire King™ Musclewood

*Carpinus caroliniana* 'J.N. Select A' PP29969

  
JOHNSON'S NURSERY INC.™  
262.252.4980 → Menomonee Falls, WI  
www.jnplants.com

H: 20' → S: 20' → Zone: 3  
Full Sun to Full Shade

As with all JN Musclewoods, this cultivar possesses the signature orange to red fall color with best results in full sun.

Fire King™ is a versatile choice. It tolerates full sun to full shade, is adaptable to many soil textures, and provides interest throughout the season. It's notable for having a vigorous growth rate, making it useful as a screen, specimen, shrub border, or understory tree.

The excellent branching habit of Fire King™ Musclewood requires minimal pruning for shape and plant health. It has no major insect or disease issues.

Fire King™ was selected by Mike Yanny in 2003.

# Cornus mas 'JFS PN4Legacy' — **Saffron Sentinel cornelian cherry**

20'H x 15'W; USDA zone 6; full sun/part  
sun; average/moist soils

Zone: 4  
Height: 22'  
Spread: 12'  
Shape: Columnar  
Foliage: Dark  
green  
Fall Color: Dark  
reddish purple  
Flower: Bright  
yellow  
Fruit: Bright red  
Bark: Dark  
brown, exfoliating

Bright yellow  
flowers emerge  
along winter-bare  
branches of  
this vigorous,  
symmetrical,  
columnar tree.  
Dark green foliage  
follows, remaining  
clean through the  
summer months  
before turning deep  
crimson in autumn.  
Tart and tasty bright  
red fruit ripens in  
late summer to  
early fall. Attractive  
dark brown bark  
exfoliates with age.

# Malus 'JFS-KW5'— Royal Raindrops crab apple

20'H x 20' W; USDA zone 4; full sun;  
average/well drained soil; resistant to  
fungal infections, is adaptable

Zone: 4  
Height: 20'  
Spread: 15'  
Shape: Upright  
spreading  
Foliage: Purple,  
cutleaf  
Fall Color:  
Orange-red  
Flower: Bright  
pinkish red  
Fruit: Red, 1",  
persistent

**DISEASE  
RESISTANCE:**  
Scab: Excel.  
Fireblight: Good  
Cedar-Apple  
Rust: Excel.  
Mildew: Good

Bright pinkish red  
flowers combine  
with deep purple  
cutleaf foliage to  
present a unique  
new crab. Deeply  
lobed leaves and  
upright form with  
good branching and  
density are inher-  
ited from its Golden  
Raindrops®  
parent. Nursery  
growth is outstand-  
ing, and it displays  
good to excellent  
resistance to the  
common diseases.

# Nyssa sylvatica 'M.O.N. 2'—Majestic black gum

25'H x 15'W; USDA zone 4; full sun; acidic, well-drained soils; urban tolerant, adaptable

**Shade Tree**

**25' - 35' High**

**15' - 20' Spread**

**Growth  
Slow**

**4 + Hours**

**Red Fall Color  
Glossy Foliage**

**Zone 4 - 9**

## Majestic® Black Gum

*(Nyssa sylvatica 'M.O.N. 2')*

Majestic® Black Gum is a smaller variety of Black Gum with an upright growing habit. It has glossy green foliage that will turn reddish orange to purple in the fall. Majestic® Black Gum can grow in wetter areas of the yard. A great tree to add color and interest to the yard.

# Parrotia persica— Persian ironwood

(Image is not for variety selection, though is very similar)

30'H x 25'W; USDA zone 4; full sun;  
average soils; tolerates wide range of soil  
conditions

## Persian Spire™ Parrotia

*Parrotia persica* 'JLColumnar' PP 24951

Zone: 5  
Height: 25'  
Spread: 10'  
Shape: Columnar  
to upright oval  
Foliage: Green,  
fine textured  
Fall Color:  
Orange, red,  
yellow and  
burgundy  
Flower: Showy  
red stamens

Unique for both its  
form and fine tex-  
ture, this strongly  
upright tree is a  
colorful choice for  
hedges, screens and  
formal street plant-  
ings. Refined foliage  
emerges purple and  
matures to green  
with purple tinted  
margins that linger  
into the summer  
months. Fall color  
is bright and long  
lasting.

# Sorbus x hybrida 'Oak-leaf'—Oakleaf mountain ash

25'H x 20'W; full sun/part shade;  
moist/well-drained soils; tolerates urban  
soils

Zone: 3  
Height: 30'  
Spread: 20'  
Shape: Upright  
with ascending  
branches, oval  
head  
Foliage: Lobed,  
divided  
Fall Color: Rust  
Flower: White, in  
clusters  
Fruit: Red, in  
clusters

Originating  
as a hybrid in  
Scandinavia, this  
Mountain Ash has  
an unusual leaf  
similar to English  
Oak, but divided to  
the midrib near the  
leaf base.

Syringa reticulata  
'Boulevard'—  
**Boulevard tree lilac**  
+ Syringa reticulata  
'Summer Storm'—  
**Summer Storm tree  
lilac**

(Image is not for variety selection, though  
is very similar)

Both Boulevard + Summer Storm: 20'H x  
12'W; USDA zone 3; full sun;  
average/moist soils; very adaptable

Zone: 4  
Height: 20'  
Spread: 15'  
Shape: Upright  
spreading  
becoming  
rounded  
Foliage: Dark  
green  
Flower: Creamy  
white panicles

Frothy white flower  
plumes of late  
spring take center  
stage at a time  
when few other  
trees are in bloom.  
Hardy and adapt-  
able, this sturdy,  
small-stature shade  
tree demands a  
curtain call in  
autumn when its  
rich, golden-bronze  
leaves stage a  
command perfor-  
mance. Once the  
leaves have fallen,  
the shiny brown  
bark of the trunk is  
revealed.

# Tilia cordata 'Unique'— Unique linden

(Image is not for variety selection, though is very similar)

25'H x 15'W; USDA zone 3; Full sun;  
average, well-draining soils; highly tolerant  
of urban soils and stressors

Zone: 4  
Height: 40'  
Spread: 30'  
Shape:  
Pyramidal,  
symmetrical  
Foliage: Dark  
green  
Fall Color: Yellow

Introduced in 1961, this durable cultivar has become the standard of comparison among the Lindens. It has a strong central leader, very uniform branch arrangement and a symmetrical, pyramidal form.
